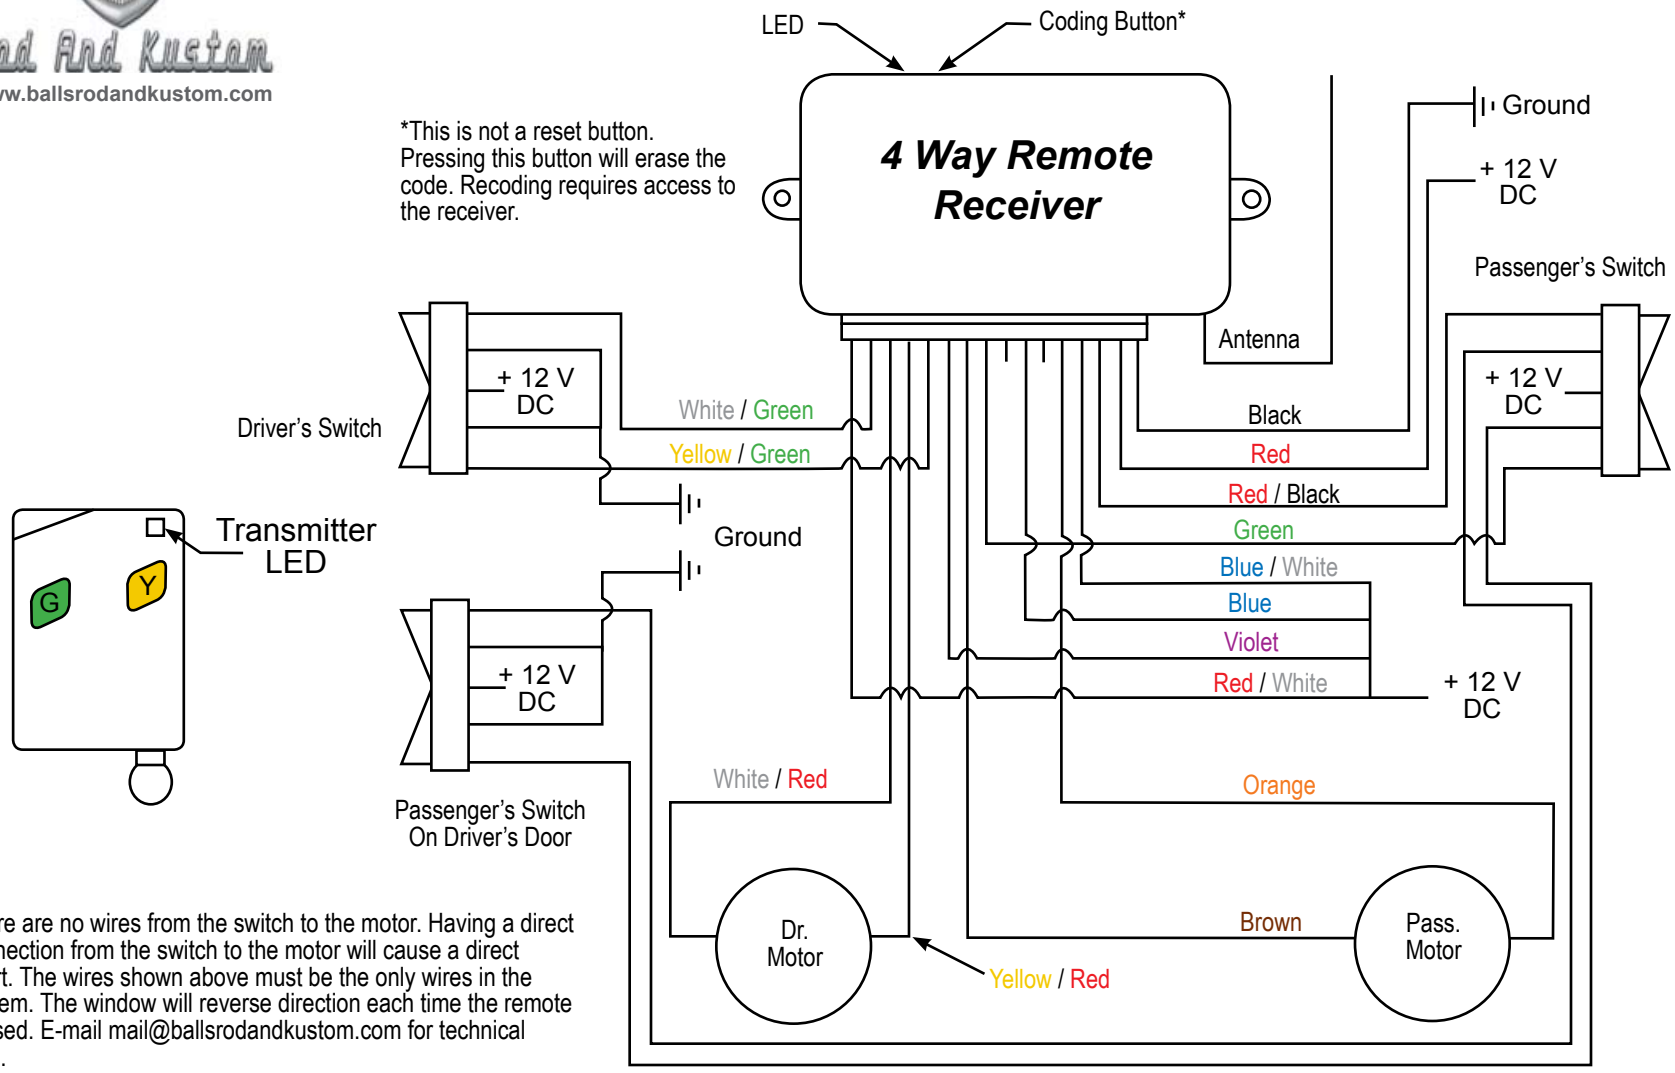
4 Function Remote Control (Ball's Double / Single)

Ball's Rod And Kustom
www.ballsrodandkustom.com



There are no wires from the switch to the motor. Having a direct connection from the switch to the motor will cause a direct short. The wires shown above must be the only wires in the system. The window will reverse direction each time the remote is used. E-mail mail@ballsrodandkustom.com for technical help.
